

# CASE STUDY

## SpiraPlan Drives 30% Increase in Project Delivery Efficiency for ORIX-METRO

### The Company

Company: ORIX-METRO

Industry: Finance and Leasing

Location: Philippines

### The Challenge

ORIX-METRO faced persistent challenges related to integration and troubleshooting within their application lifecycle management (ALM) and test automation processes. These issues were critical roadblocks, impeding the efficient management and deployment of financial software systems.

### Tools Used Prior

D365 was used prior to Inflectra

### Inflectra Tools Used

- SpiraPlan
- SpiraTeam
- SpiraApps

### The Objective

- **Improve Operational Efficiency:** Streamline processes to enhance productivity and reduce delays.
- **Create an Integrated System:** Ensure all software tools used in the company communicate smoothly.
- **Simplify Troubleshooting:** Reduce system downtime by making problem-solving faster and more effective.

# SpiraPlan Drives 30% Increase in Project Delivery Efficiency for ORIX-METRO

## Why Spira by Inflectra?

ORIX-METRO had a history of success with Inflectra products, having used them on prior projects to great effect. This familiarity and trust played a crucial role in their decision to continue their partnership.

### Key Reasons for Choosing Inflectra's Products:

- Feature completeness and unlimited usage
- Deployment options: Cloud and on-premises
- Industry functionality: Compliance, traceability, auditability
- Operational functionality: Scaled Agile, project management, requirements management, advanced QA.

“

Spira had a substantial impact on our operations. The platform's comprehensive compliance features **streamlined our audit preparation**, saving valuable time and resources. **Issues in production were minimized by 10%**, contributing to a more stable and reliable operating environment.

”

## The Inflectra Solution

Inflectra's Spira platform proved to be a transformative solution for ORIX-METRO, enabling them to streamline operations, improve efficiency, ensure compliance, and ultimately drive greater success in the competitive finance and leasing industry.

- **Time-to-Market:** Achieved a **45% acceleration**, shortening project cycles and delivering services faster.
- **Project Delivery Efficiency:** A **surge of 30%**, directly boosting productivity and throughput.
- **Cost Reduction:** Achieved a **35% cut in costs** through effective automation strategies, reallocating resources to fuel further innovation and growth.

## The Inflectra AWS Partnership

Inflectra's customers work in mission-critical and high-assurance industries, and consequently expect the highest levels of service. For this reason, Inflectra hosts all of its applications on the proven Amazon Web Services (AWS) global infrastructure. Inflectra offers its customers a trusted lifecycle management platform for delivering critical products and services on-time and with the highest quality. The partnership with AWS lets us focus on delivering application services, knowing that the infrastructure has world-class security, reliability and safety built-in.

In addition, the flexibility and agility of the AWS platform has let Inflectra expand and scale its business to meet and exceed customer requirements as their needs have grown. We have been able to add regions and services as our customers globally expanded.

## Leica: How Inflectra and AWS Delivered Results

### »» Solution

The deployment of Inflectra's SpiraPlan and SpiraTeam revolutionized Leica Biosystems' approach to managing medical device development projects, offering a unified platform for diverse project needs. Inflectra's integrated requirements management played a crucial role in keeping all stakeholders aligned

One of the key considerations was how to support a global team with highly performant, low-latency connectivity. Inflectra in partnership with AWS was able to deploy its SpiraPlan and SpiraTeam solutions into multiple AWS regions (Ireland, Frankfurt, Singapore, and Seoul) giving the customer the flexibility, performance and reliability they needed.

Inflectra made use of AWS EC2, EBS and AWS Lifecycle Manager to provide a robust and highly performant solution across these regions.

### »» Results and ROI

Inflectra's platform enhanced collaboration across Leica Biosystems' teams in Germany, India, and China. It allowed different departments, from product design to marketing and IT, to effectively share requirements, feedback, and reviews. Finally, it centralized management of requirements, incidents, and tests, improving overall productivity.

## Features

### Reliability & Privacy

Our customers care about data privacy and service reliability above all else. Inflectra has designed its SaaS platform using the flexibility of AWS to have six discrete privacy regions that ensure data sovereignty and privacy requirements are always met. Currently we are able to host data for customers in the USA, Canada, Europe, India, Australia, and Singapore. Each region offers multiple availability zones and both a primary and disaster recovery region

### AI-Enabled Traceability

Our customers need to be able have complete traceability from their business requirements to all of the software development and testing assets managed within the Inflectra platform. We leverage the power of AWS CodeBuild and DeviceFarm to provide an integrated DevOps solution dashboard in a 'single pane of glass'. Embracing the power of GenerativeAI, our platform includes an innovating AI assistant using AWS Bedrock that lets customers generate tests, tasks, code and risks from their business requirements and user stories.
