

Rapise™ v1.3.1 Release Notes

Rapise™ version 1.3.1 is the latest release of the Rapise™ automated functional testing solution from Inflectra®. These Release Notes cover what issues this version addresses, what new features have been added, and finally download instructions. If you have any feedback or suggestions regarding this release or any of our products, please send us an email at support@inflectra.com with your ideas or comments.

New Features

- Support for testing Qt Framework applications added with new Qt object recognition library

Enhancements

- None

Resolved Issues

- Fixes mouse handling for left-handed users.
- Fixes issues with some early versions of Rapise 1.3 when testing against Firefox 8.0+

Download Instructions

To obtain this version of Rapise™, you need to log in to the customer area of the Inflectra® Website at: <http://www.inflectra.com/CustomerArea>. From there you can find the list of downloads under “My Downloads”. Simply right-click on the installation link, download the Microsoft Installer (.msi) package to your computer, and then double-click on the package to begin the installation.

The installer will detect the existing version on your computer (if any) and upgrade the program files and migrate your data into the new version. *After installation you may be required to activate your product using the provided activation code.*

The full installation and user’s guide can be found at <http://www.inflectra.com/Rapise/Documentation.aspx>.
