

Rapise

The Ultimate IDE For Testers

Automation of Everything

Rapise helps you test it all: web, mobile, desktop, & APIs. Rapise doesn't just test, it understands. And it will help you manage tests spanning multiple technologies at once.

Automation for Everyone

Using Rapise, anyone can automate. Rapise records your tests, then lets you edit them in its easy-to-use spreadsheet-based editor. Or you can dig into our JavaScript-based engine that's a breeze to extend.

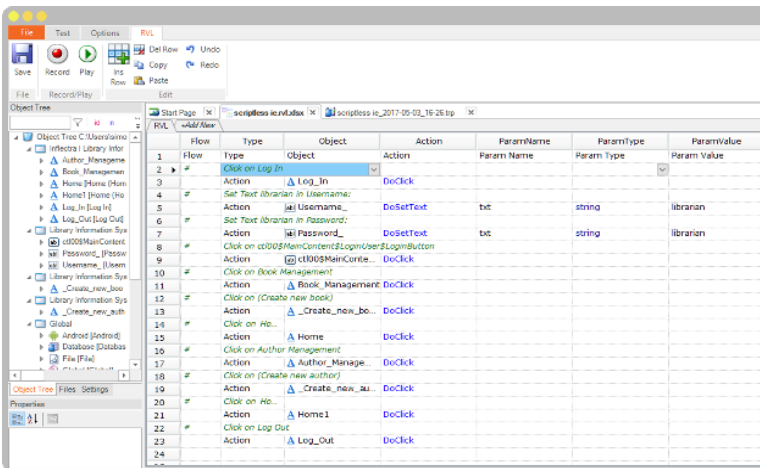

Rapise

inflectra.com/rapise

"I have been very impressed with just how simple the tool is to setup and record your automation scripts... we have found it to have all the functionality we need without all the complexity of many other tools out there... the trusted Inflectra customer support team has always been awesome."

QA analyst

Feature Highlights

Powerful automated test recording that creates test scripts from user actions, with validation built-in

Keyword and data-driven testing using Excel spreadsheets and databases

Robust integrations and easy extensibility using Javascript and third-party libraries

Rapise can test all your technologies
