

SpiraTest®, SpiraTeam®, SpiraPlan® 6.2.2 Release Notes

SpiraTest® is the integrated requirement, test management, and bug-tracking system from Inflectra®. SpiraTeam® is the integrated application lifecycle management system from Inflectra®. SpiraPlan® is the enterprise agile project and program management suite from Inflectra®

These Release Notes cover what issues this version of Spira addresses, what new features have been added, and finally download instructions. If you have any feedback or suggestions regarding this release or any of our products, please send us an email at support@inflectra.com with your ideas or comments.

Enhancement & Resolved Issues

The following issues and enhancements have been addressed in this release:

- Build detail page: need ability to collapse description section, or confine it within a scrollable box- [IN:4300]
- Detect and notify the user when they attempt to run a test set with a blank configuration- [IN:4655]
- Html and body tags from rich text fields are not stripped out when rendered outside of CK editors - [IN:4666]
- Cloning workflows does not copy digital signature settings correctly- [IN:4674]
- Administration > Project > Project Associations: cross project artifact dropdown does not show selected artifacts- [IN:4881]
- Accented characters in some grids do not display correctly- [IN:4965]
- Notifications for risks: many fields are blank in the email; warning about exposure- [IN:4967]
- "Source Code" link under Project Admin Menu bounces back to Project Admin Home- [IN:5073]
- Cannot delete Document with Comment- [IN:5082]
- Folder Name on Test Case List not decoding HTML - [IN:5123]
- Test Case Details: Can Link a Test Case to itself- [IN:5131]
- For rich text custom properties, long custom property name overlaps the field itself- [IN:5148]
- Product delete fails sometimes with a TaraVault foreign key error- [IN:5181]
- Sortable grids add new item erroneously after just adding a new item and clicking buttons like refresh- [IN:5192]
- My Assigned Requirements widget shows numbers for the 6 new statuses- [IN:5213]
- Fix sidebars on list and details pages to the top of the page so they are always visible- [IN:5214]
- Test Execution Page Leave Button no functionality when on a test case not owned- [IN:5218]
- Custom Props of type list: default values are saved but not shown in the admin UI- [IN:5224]
- Export buttons on Requirements list page are set for release permissions, not requirement permissions- [IN:5240]
- User profile page: clicking username copies rss token not username- [IN:5243]
- Search in dropdowns for anywhere in the values, not just at the start- [IN:5244]
- Task board: error occurs when creating a new task with certain settings- [IN:5258]
- Error not shown in association panel when the server throws an error message- [IN:5276]
- Limit the rows displayed on the product dashboard grids- [IN:5277]
- Improve the UI for the Modal Dialog Boxes when creating Custom Reports - [IN:5293]
- Security fix for user first or last name containing code- [IN:5295]
